

Two units in one: incorporates the P sinewave inverters' advantageous features with those of the PSR solar charge controllers - which offer the opportunity of easy and uncomplicated installation and cabling.

The PC200 (200VA) model possesses the built-in PSR8 solar regulator (8A) whilst the PC400 (400VA) and PC1000 (1000VA) models contain the more powerful PSR20 charger (20A).
